

January 31 - February 06, 2003

The Terra spacecraft is in nominal mode. All instruments are in Science Mode.

Terra successfully recovered from a single event upset (SEU) that occurred in the South Atlantic Anomaly on February 1, 2003. This is the third such event that has occurred with the SFE during on-orbit operations.

TERRA PLANS:

 Execute MODIS calibration lunar roll maneuver on February 20, 2003

 Continue planning for execution of Deep Space and Lunar Calibration Maneuvers. The first maneuver is being planned for the last week in March.
